Broker Comments

"Mrs K" is a fantastic example of this popular and proven model. She benefits from very lower engine hours and usage which is most noticeable on the interior of the yacht compared to her peers. This yacht also has some desirable options fitted which elevates her; teak sidedecks, foredeck sun beds, stainless steel ground tackle, larger radar scanner and aft facing camera being the most noteworthy on deck.

Internally she has a contemporary feel with the lighter Alba joinery. She has some noteworthy options fitted when she was constructed that include the reverse cycle air condition, audio visual package and scissor berths in the VIP cabin.

The yacht has undergone an engine and IPS drive service in July 2026 which as undertaken by a Volvo main dealer. Additional at this time the under water light we replaced, anti-foul renewed anodes replaced.
