Sea-Doo Jetskis

Part number:
RMC780 Spark
RMC784 ST3 hull

Introducing the award winning Rapid Padeye. Short listed for the prestigious DAME award at the Marine Equipment Trade Show in Amsterdam.

The Rapid Padeye is easy to install, using the snap toggles (RMP205). To attach, insert - push - turn, to release, push - turn - remove.

Flush Fitting Padeye

Part number: PE25FF
(Flush to the deck)

Low Profile Padeye

Part number: PE25LP
(5mm high, ideal for GRP and Flybridges where space is limited)

Snap toggles

Part number: RMP205
(Single snap toggle)
Product number: RMP206
(Box of 50 snap toggles)

Our Flush Fitting or Low Profile Rapid Padeye are suitable for all tenders and jetskis up to 500kg in weight. They are engineered with a weather tight spring loaded seal designed to prevent any water or debris from entering the padeye.

Available in kits of three or four in grey.

Padeye Kit - Flush fitting (Pack of 3)

Part number:
Grey: PMY016-GY

Padeye Kit - Low Profile (Pack of 3)

Part number:
Grey: PMY018-GY

Padeye Kit - Low Profile (Pack of 4)

Part number:

Tie Down Kit (When the deck fittings and chocks are already supplied)

Part number: PMY005
Consists of: 1 x PMY012-GY, 1 x PMY013, 1 x WP25L-4-GY

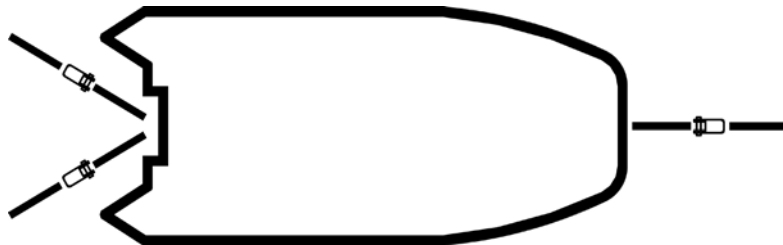

Stainless Steel 316 Tie Down Kits

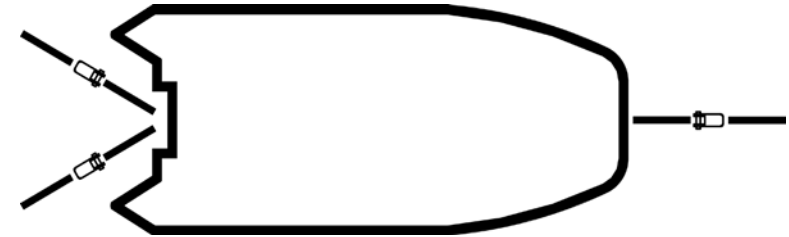

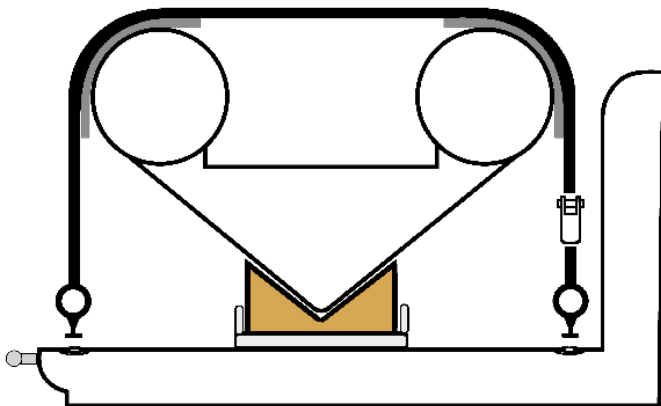

The two most common ways to secure a tender to the bathing platform or flybridge is from the bow and stern of the tender or over the tubes of the tender.

Our tie down kits are manufactured using 316 stainless steel ratchets and 25mm polyester webbing and are suitable for tenders up to 500kg in weight. Supplied in a variety of different end fittings to secure your tender.

Bow & Stern Tie Down Kits - 3 or 4 straps

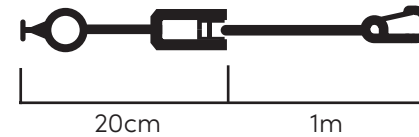

Over Strap Tie Down Kits - 2 straps

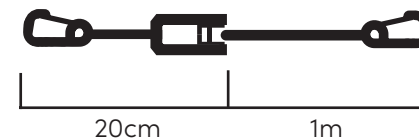

Padeye to Snap hook kit
(3 tie down straps)

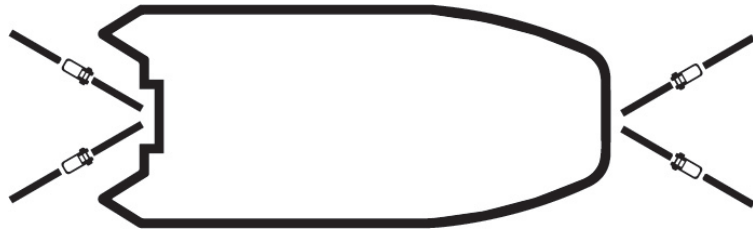

Part number:
Grey: PMY011-GY

Padeye to Loop kit

Part number: PMY014

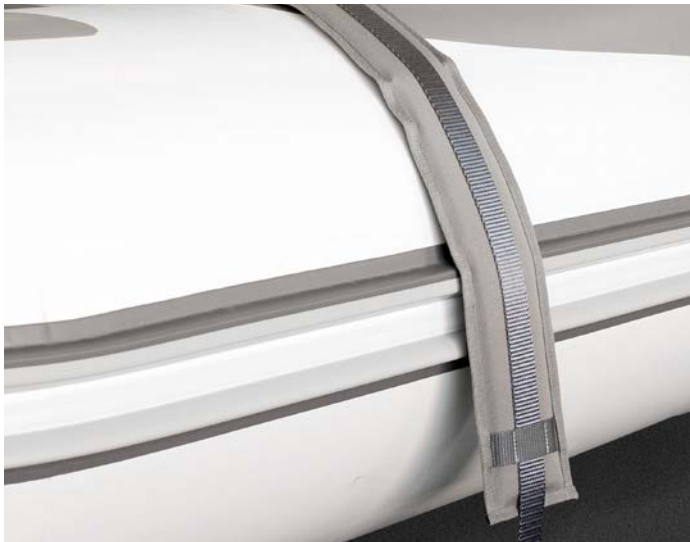

Padeye to Padeye kit

Part number: PMY015

Tube Protector Pads

Our tube protector pads are designed to fit under the webbing straps, to prevent any damage to the tubes of the tender when the straps are tightened.

Tube protector pads

Part number: WP25L-GY
Single pad
Part number: WP25L-4-GY
Pack of 4 pads

Adjustable Lifting Sling

The adjustable lifting slings are designed for the perfect fit. All slings are supplied in a 4 leg version. If your tender has 3 attachment points, simply clip one of the forward legs to the master ring. Your client's next tender might have 4 attachment points.

- Stainless 316 fittings
- Each sling has a unique serial number
- 100% Polyester webbing
- Manufactured in the UK
- Certified to EU Safety Standards

Crane sling SWL500kg (Single point sling)

Part number: PMY008
(Tender with an outboard engine)
Part number: PMY009
(Jet Rib)

Passerelle sling SWL350kg (2 point, 2 leg slings)

Part number: PMY010

Jetski Lifting Slings

The slings provide a safe, quick and easy way to lift your jetski. The 4 point lifting sling uses a single point attachment with a safe working load of up to 700kg.

- Stainless 316 fittings
- Each sling has a unique serial number
- 100% Black Polyester webbing
- Manufactured in the UK
- Certified to EU Safety Standards
